

II. AMENDMENTS TO THE SPECIFICATION:

Please make the following amendments to paragraph [0039] of the specification:

-- [0039] Referring now to FIG. 1 in conjunction with FIG. 3, a method for producing a FST linguistic database is based on a sequence of instructions repeated for each dictionary word (dword) and associated lemma to be added to the dictionary: --

Please make the following amendments to paragraph [0052] of the specification:

-- [0052] It will be appreciated that the method described above for producing a linguistic dictionary, which is shown in Fig. 2, may be carried out in software running on a processor (not shown), and that the software may be provided as a computer program product carried on any suitable data carrier (also not shown) such as a magnetic or optical computer disc.
